

## PRATT AND LARSON RC CRACKLE GLAZES

### RC CRACKLE

These are crackle surfaced, glossy glazes in creamy transparents, whites and soft colors. These glazes are recommended primarily for wall usage. A colored grout or commercial stain can be used to add contrast to the crackled lines. All RC crackles come standard on smooth field tile. Please see glaze usage chart for installation and application information.

▲ Subject to acid etching. ● Not recommended for counter top use. ■ Not recommended for floor use.
