

HUSTLE

Tile is an inherently sustainable choice because it can last a lifetime, produces no VOC off-gassing and is a non-leaching product that does not adversely affect other materials or humans that come in contact with it. All of our product lines, produced both in the US and by our global partners are made in factories that share our passion and sense of responsibility to care for the environment and produce products in the most sustainable way possible.

Hustle Specifics:

- Made from 98% pre-consumer recycled glass
- Tiles are mounted on 96% pre-consumer material including both the mesh and glue
- Lead-Free
- Non-Toxic
- No VOC off-gassing

Around the Hustle Factory:

- The recycled glass is made using the left-over glass slabs used by glass factories. The glass is then fractured and reduced to a powder.
- No scrap is thrown away, impurities are discarded and re-used in the factory
- Boxes are made of recycled material and environmentally friendly soy ink is used for the print
